

Product description

DM Magnetic Base Film 700 μ can be mounted on flat, curved and cylindrical surfaces. Build your magnetic surface and create stunning graphics in combination with our ferrous media. Magnetic Base Film is available in three different thicknesses. The thicker base films have a higher holding strength and are recommended for larger graphics.

DM Magnetic Base Film 700 μ combined with DM Ferro PET Film 180 μ meets the German B1 standard for fire retardancy, making it the perfect choice for the use in public areas. It is durable, safe and can be used in multiple layers.

Shelf life and environment aspects

The shelf life of this media is 1 year under normal conditions (10°C – 35°C at a relative humidity 30% - 75%). Higher humidity and/or temperature can affect the product performance. Always store the media in a dark place in its original packaging.

Important:

Before using the media the user must examine the suitability of the media for each application. We shall not assume liability for non-performance of the media. Specifications are subject to change without notice.

Physical characteristics

Surface: Brown, not for printing
Base material: Flexible magnet
Adhesive: Permanent

Thickness: 700 μ
Weight: 2700 g/m²

Magnetic holding force: 36-44 g/cm²
Guaranteed magnetic holding force: \geq 36 g/cm²

Features

Highly flexible base to create magnetic surfaces
Permanent self-adhesive layer
PVC-free
Recommended when using multiple layers of ferrous media
Easy to install
Also available in other thicknesses

Applications

Retail advertising
Trade show graphics
Interior decoration
Wall graphics
